

NAPCU Annual Meeting Evaluation

Did the program meet your expectations? If not, why not? If yes, what did you like best?

- Wow! Terrific program and round robin. Great food. Beautiful accommodations.
- Yes. Great choice of speakers and topic.
- Exceeded expectations. Great panel - very thought provoking. Also loved the round robin experts from each school. Always get ideas from that.
- Yes - well planned and executed - speakers were interesting and timely
- Yes - better than I thought. Good information from speaker.
- Yes. A very timely topic. A good panel with interesting perspectives and info to share
- Yes - Great Presenters. Good Venue. Very good food.

Did the time of the program (two ½ days) work well for you? If not, what suggestions do you have?

- Yes, my preference
- Yes. Noon to noon works well.
- Yes. Great local arrangements/accommodations
- Yes - it worked well for me. I was able to travel to the site and kept the cost down with only one nights lodging.
- OK
- Yes
- Works fine

What can NAPCU do for you? Can you share some ideas about the organization? Are there other opportunities for collaboration in addition to our annual meeting and statistics?

- Every few months - a newsletter explaining/announcing what exciting thing we are doing in our libraries.
- Doing it.
- Reciprocal borrowing privileges are important - appreciated.

NAPCU Website: Would you like to see it further developed with more information? Are there ways we can use the website more effectively?

- Best practices - or is that covered elsewhere?
- Sharing new, useful links we have discovered.
- Probably so. To be honest, it's been awhile since I've looked at it so can't be very specific.
- Might be nice to see further development, but I have no ideas.

Any other comments:

- Although an explanatory note went out, the accommodations were on the expensive side.
- Thanks to the committee. Very good work and use of our time.
- Left with a lot of answers and even more questions so I feel the meeting was very successful.
- A good conference!
