

**PRODUCT LIABILITY SYLLABUS**

The text we will be using is Fischer, Green et al., *Products Liability: Cases and Materials* (4th ed.).

I have posted past exams and some other material at the website, <http://guweb2.gonzaga.edu/~dewolf/ProdLi09/default.htm>.

I will upload a video of each class to <http://itunesu.gonzaga.edu>. Look for Gonzaga School of Law, then my page, and then the tab for Product Liability 2009.

Reading Assignments

There is a fairly heavy reading schedule, but I'm assuming that a significant amount of the material we will cover is an expansion of what you previously read in connection with your first-year courses in Torts, Contracts, and some other courses.

Here is the schedule:
